

DOVE.

A N

Almanack

for the yeare since

the nativité of our

LORD, 1635.

¶ Being the third after bissextile or leap-yeare; and from our Saviours passion, 1602.

¶ Being also the yeare from the Worlds creation, 5584.

¶ Calculated properly for the famous Universitie and Town of CAMBRIDGE, where the pole is elevated above the horizon 52 degrees and 17 minutes.

*Inter spem, curamque, timores inter, & iras,
Omnem crede diem tibi diluxisse supremum.*

Printed by the Printers to
the Universitie of Cambridge.
